Class of 2012

POST-GRADUATE SURVEY – EXECUTIVE SUMMARY

ABOUT THE SURVEY

The purpose of the annual post-graduate survey is to capture information on the employment and graduate school status of Messiah College alumni within six to nine months of graduation. Statistics provided are based on information received through a variety of methods. An electronic survey was created using Qualtrics, and distributed in May and October via email. Data was also gathered from 2012 graduates who attended the “Zero-Year Reunion” at Homecoming. Follow up emails were then sent in November and December to alumni who had not yet responded to the survey. Information on non-responders was then gathered from updated professional profiles on social media sites such as LinkedIn. Finally, individual academic departments were contacted via phone or email, and a request was distributed to all Messiah College educators for any additional information on graduates whose status remained unknown.

Through this extensive process, responses were collected from 70 percent of the Class of 2012. (this response rate is a 21 percent increase from last year’s report of the Class of 2011).

The goal of this report is to provide summary highlights, as well as a breakdown by academic department, of the post-graduate activity for the Class of 2012.
